

ACER ALTOS SOLUTIONS

HIGHLIGHTS

- File sharing: Supports up to 2TB of storage capacity for file sharing among Windows, Linux, and Mac users.
- Automatic data backup and system restore: safeguards multiple clients from the risk of disk failure, virus attack or human error. Can remotely restore system and data on individual clients in matters of minutes.
- Advanced data protection: user name or group level password protection combined RAID Levels 5, 10 and 1 support.
- Easy to setup and manage: User-friendly Web interface for setting up users and access rights as well as providing system information for disk usage, service status, RAID, system log and current connections.
- Quiet and energy saving: Quiet with minimal power consumption while maintaining a high performance, ideal for the home and office environment.

The Altos  easyStore is an intelligent network storage solution for small office, medium office, and home network environments.

Easy to setup and easy to use, the Altos  easyStore provides up to 2 TB of storage capacity to share files among mixed OS users through network. It also features an automatic client backup and system recovery system, ideal for protecting valuable data and quick system and data restore. The Altos  easyStore further completes the data protection with support for RAID Levels 5, 10 and 1 and user name or group level of password protection.

FUNCTIONALITY

- NAS Storage

Altos easyStore provides easy file sharing among the network and up to 2 TB of shared storage to meet the increasing demand of storage capacity and file sharing. It manages shared folders by user names or groups, providing additional management security.

- Auto Backup

Shipped with a client backup and recovery software, Altos easyStore provides entire system backup and recovery for clients running Windows® OS. Your system and data can be protected and recovered against disk failure, file corruption, accidental file deletion or virus attacks.

- System Recovery

In the event of disk or disk partition failure, the provided PXE boot ensures fast system restore and minimize system downtime. The clients can be remotely rebooted via PXE protocol from a backup on the storage system and then recover the system disk. Alternately, if the client's computer does not support the PXE boot not supported, clients can be rebooted from the recovery CD and restore the system disk form the backup on the storage system.

- Easy to Setup and Manage

Setup and manage Altos easyStore using intuitive Web based graphic user interface in a few simple steps.

Typical solutions scenarios

- Workgroup shared file storage
- Small office data and system protection solution
- Storage capacity extension for notebook and PC users

Specification**		
PLATFORM	Processor	Intel® 80219 IOP 600MHz
SYSTEM MEMORY	Memory	DDR-SDRAM 256MB
	Embedded OS	Intel® 8MB NOR Flash
SYSTEM	Storage Capacity	Hard Drive bays x 4, up 2 Terabytes
	Hard Drive Support	4 Serial ATA , SATA I / II, Intel® 31244
	RAID Levels	RAID 0, 1, 5, 10, and JBOD
	File Sharing	CIFS/SMB/NFS
	Network Controller	Intel® i82541 Gigabit Ethernet
I/O INTERFACE	USB x 2	FAT/FAT32 file format for flash Disk
	Automatic Backup	Yes
CLIENT SOFTWARE	Remote System Recovery	Yes
	NAS OS Support	1. Microsoft® Windows® 98/ME/XP/NT4.0 (SP5)/2000/2003
		2. MAC System 10.x or later (SMB)
		3. UNIX/Linux
FILE SHARING	Backup OS Support	Windows OS
	Number of Client License	2 standard, max. 16 optional
	Network Protocol	FTP
		CIFS/SMB/NFS
	Network Service	DHCP Client/Server
	Management Interface	Web Graphic User Interface SSL
	Access Control	Shared folder user name or group read/read-write access control
COOLING	System Fan	92 x 92 x 25 mm
	Temperature, ambient operating	0 to 40 C
ENVIRONMENTAL PARAMETERS	Humidity, ambient operating	10 to 90 percent
	Dimensions	11.5 x 24 x 21 cm
PHYSICAL DIMENSIONS	Weight	4.5 kg
	Input	AC 115 V- 230V @ 50-60 Hz
AC POWER	Output	220W
		CE
SAFETY COMPLIANCE		CE
WARRANTY		3* Years carry-in
