# Your Business performance just got better

In modern business the difference between setting standards and building on them is what separates success from excellence. When you're looking to drive your business further and faster, you need dedicated performance. The Acer TravelMate Profile design was built with that single purpose in mind.

## empowering technology

### ACER EMPOWERING TECHNOLOGY

One touch of the Empowering Key and you'll experience all the benefits of your Acer notebook. Easily take control of security, performance, settings and communication.

### MAGNESIUM ALLOY

Magnesium alloy cover that is 20 times stronger yet considerably lighter than plastic, adding stylish protection while minimizing weight for effortless mobility.

### \*3G MOBILITY

Built-in 3G broadband to offer a reliable and seamless mobile solution for high-speed access to email, office data and internet.

## The New Look of Business Performance

With a range that includes 12", 14", 15" and 17" models, each combining the very latest mobile processor technology with the unmistakable Acer qualities of mobile performance, wireless efficiency and dependable security, the TravelMate Profile family has the right solution for all your mobile business needs.

## Is your data safe on the move?

With the TravelMate Profile family it is. Featuring an advanced magnesium alloy cover that is 20 times stronger than plastic yet considerably lighter, Acer DASP technology (Disk Anti-Shock Protection) and biometric fingerprint protection on certain models your data has never been safer. And with dual-band quad-mode 802.11a/b/g/Draft-N network connectivity, offering wireless transmission speeds up to 5 times faster than the current ABG standard, your mobile business has never been so productive.

## Mobile efficiency

Acer has redefined the meaning of mobile efficiency by introducing several design enhancements to the new TravelMate ProFile family, ranging from integrated docking ability on certain models, a reshaped and more comfortable keyboard to optimized port placement, increased battery life and a host of personalized security features. The result is exceptional multitasking performance and complete connectivity that allows you and your business to stay competitive all day long.

Integrated docking connectivity to enhance your business efficiency

### ACER BIO-PROTECTION FINGERPRINT READER

The Acer Bio-Protection-based fingerprint solution provides an additional level of system security and control through convenient "finger-protection" of selected documents or applications, eliminating the need to remember passwords and PINs, and reducing the cost of security management.

### ACER DASP

DiskAnti-Shock Protection is a technology that safeguards the hard disk against knocks and guarantees an unmatched level of protection.

### ACER GRIDVISTA

Easy-to-use software designed to automatically split the screen in up to four separate windows and make the most of available screen space.

### ACER SIGNALUP

This technology strategically positions two PIFA antennae on the notebook's top panel to generate an omni-directional signal sphere for superior wireless reception.

Complete video conference functionality with Bluetooth® VoIP phone and integrated CrystalEye webcam

### ACER CRYSTALEYE

Easy to use and compatible with internet based video and voice communication services, Acer CrystalEye adds unlimited potential and total simplicity to your video conferencing possibilities.

### ACER QUICKCHARGE

Acer QuickCharge increases battery life and reduces recharging time: In one hour it brings the battery to 80% full charge and 100% in just two.
